YAĞMUR KAHRAMAN

Electrical & Electronics Engineering | Focused On Embedded Systems & Avionics Engineer

İzmir, Turkey kahramanyagmur178@gmail.com +90 507 481 70 70 linkedin.com/in/yagmur-kahraman-37a040255

PROFILE

Analytical Electrical and Electronics Engineering graduate specializing in embedded firmware development, microcontrollers, and avionics technology. Experienced in dynamic hardware-software integration, automated testing workflows, and cross-functional project management. Committed to deploying reliable engineering solutions for real-world electronic systems.

WORK EXPERIENCE

Volt WEG Group
İzmir, Turkey
Sep 2026 – Dec 2026

R&D PROJECT MANAGEMENT ENGINEER INTERN

- Conducted IEC standard S1 (continuous duty) and S3 (intermittent periodic duty) load testing on electric motors, analyzing thermal limits and dynamic stress performance.
- Managed technical documentation and resource allocation for R&D electric motor engineering projects, improving workflow tracking efficiency.

TC. Cumhurbaşkanlığı İletişim Başkanlığı
Çankaya, Ankara
Jul 2025 – Aug 2025

INFORMATION TECHNOLOGY TRAINEE

- Contributed to the web design, frontend interface testing, optimization for a institution-specific government web portal.
- Assisted in developing a specialized high-security internal application, validating user access controls and system authentication protocols.

Uptechlabs
Remote
Jun 2024 – Jun 2024

EMBEDDED SYSTEMS & SOFTWARE ENGINEERING TRAINEE

- Implemented real-time sensor data acquisition scripts and peripheral communications (SPI/I2C/UART).

Cisco Networking Academy
İzmir, Turkey
Jan 2024 – Feb 2024

PYTHON & SOFTWARE DEVELOPMENT TRAINEE

- Engineered automated data processing pipelines using Python libraries (Pandas, NumPy) to accelerate analytical workflows.
- Built algorithm prototypes focusing on data manipulation and object-oriented program design.

Gdz Elektrik
Bornova, İzmir
Jun 2023 – Jul 2023

ELECTRICAL & GRID SYSTEMS TRAINEE

- Worked in the electric meter workshop, performing calibration, testing, meter index reading, and accuracy inspections for meters.
- Assisted in billing reconciliation, energy consumption data validation, and compliance verification according to distribution grid standards.

EDUCATION

Ostim Technical University
Yenimahalle, Ankara
Oct 2021 – Jan 2027

BACHELOR'S DEGREE IN ELECTRICAL AND ELECTRONICS ENGINEERING (ENGLISH)

Focused on Embedded Systems, Power Electronics & Avionics Technologies.

PROJECTS

Dogduino
Ostim Technical University
Oct 2025 – May 2026

LOW-COST EDUCATIONAL QUADRUPED ROBOT

Designed and implemented **Dogduino**, a quadruped robot built around the ESP32 microcontroller and PCA9685 PWM driver for accessible robotics education.

- Developed dynamic gait control algorithms utilizing inverse kinematics across 8 servo-driven legs.
- Integrated a custom Bluetooth interface for real-time mobile control (sit, stand, walk execution).
- Focused on modular embedded hardware architecture and low-power system optimization.

COURSES & CERTIFICATIONS

TEI Aviation Engines School — TUSAŞ Engine Industries	Mar 2025
Control Design Onramp — MathWorks	Mar 2025
Simulink Onramp — MathWorks	Feb 2025
Python Programming 1 & 2 — Bilgeiş	Jul 2023
Artificial Intelligence for Everyone 1 & 2 — Bilgeiş	Jun 2023
Preliminary Accounting in Microsoft Excel — Bilgeiş	Jul 2023
SAP - Fundamental Systems Understanding — Udemy	May 2022

SKILLS & COMPETENCIES

TECHNICAL & SOFTWARE
C & C++ Programming, Embedded Systems, Python, MATLAB/Simulink, Proteus, Control Systems, SAP, Microsoft Office

PROFESSIONAL QUALITIES
Analytical Thinking, Problem Solving, Eagerness to Learn, Adaptability, Technical Documentation

LANGUAGES

English: B2 (Upper-Intermediate / Technical Proficiency) **Russian:** A1 (Elementary)
